Tork Heavy-Duty Wiping Paper

Article	130062
System	W1 - Wipers wall/floor /standard system, W2 - Wipers combi roll system
Colour	White
Core inside diameter	7.1 cm
Embossing	Yes
Ply	2
Print	No
Roll diameter	26.2 cm
Roll length	170 m
Roll width	23.5 cm
Sheet length	34 cm

The 2-ply multi-purpose Tork Heavy-Duty Wiping Paper is ideal for mopping up liquids and hand drying. This paper can be used in either the Tork Floor or Wall Stand dispensers, which are developed for safety, efficiency and reliability or the Tork Maxi Centrefeed Dispenser, which is designed for smoother single-hand dispensing.

Key benefits:

- Tork Easy Handling® plastic packaging – for easier carrying and disposing of packaging
- Multipurpose - handles general wiping tasks that require strength and absorbency
- Its strong texture and high absorbency makes it ideal for removing oil, grease, lubricants and dirt
- High durability - stays strong even when wet, and is reusable

Environmental

Food Contact

This product fulfills the legislative requirements for Food Contact materials, confirmed by external certification performed by a third party. The product is safe for wiping food contact surfaces and may also come occasionally into contact with foodstuffs for a short period of time.

- defoamers (surfactants and dispersing agents)
- pH-control (sodium hydroxide and sulphuric acid)
- retention aids (chemicals that help to agglomerate small fibres to prevent fibre loss)
- Coating chemicals (that help to control the creping of the paper to make it soft and absorbent)

Material

Virgin fibres

To control product performance we use additives:

Content

The product is made from

Virgin pulp fibres are produced out of softwood or hardwood. The wood is subject to chemical and/or mechanical processes where the cellulose fibres are separated out and lignin and other residuals are removed. There are different methods used today for bleaching: ECF (elementary chlorine free, where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used. This product is certified for FSC®.

Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes
This product is certified for the EU Ecolabel.

Article creation date and latest article revision

Revision date: 05-02-2021

We do not use softeners for professional hygiene products.

In most of our mills we do not add optical brighteners.

- Pulping aid (chemicals that help to repulp wet strong paper)

The packaging material is made from paper or plastic.

Environmental certification

Essity UK Ltd, Southfields Road, Dunstable, Bedfordshire LU6 3EJ, United Kingdom

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety.

To reuse broke we use:

Virgin pulp

High product quality is secured through quality and hygiene management systems throughout production, storage and transport.

Production

This product is produced at KOSTHEIM mill, DE and certified according to HACCP, ISO 9001, ISO 14001 (Environmental management systems), OHSAS 18001, EMAS (eco-management and audit scheme), ISO 50001 and FSC Chain-Of-Custody.

Chemicals

All chemicals (process aids as well as additives) are assessed from an environmental, occupational health and safety and product safety point of view.
